

Digital Banking Platform

**Seamless banking
anywhere, anytime,
any device**

#MobiFintastic

MobiFin Digital Banking provides a seamless and unified banking experience across multiple channels. It enables customers to access banking services through digital and in-branch interactions with real-time data synchronization.

Forge a unified digital banking journey and eliminate the silos

Seamless digital onboarding

OCR scan, liveness check, video KYC, blocklist and AML compliance.

Unified customer profile

Consolidates all customer data across platforms to provide a 360° view.

Hyper-personalized & intelligent

Leverages AI-driven insights to deliver recommendations based on individual customer behaviors.

Lifestyle-centric banking

Integrates banking with lifestyle needs, offering fintech services for shopping, travel, and daily expenses.

Cross-channel consistency

Ensures a seamless customer experience across digital and branch banking.

Instant support anytime

AI-powered chatbots and live agents provide real-time assistance, resolving customer issues 24/7.

Build deeper customer relationship

Individualized banking experience

Enhance customer engagement

Enhance loyalty for using multiple channel

Understand how customers bank

Personalized offerings based on customer profiles

Increase cross-sell opportunities

The Omnichannel Mindset

Whatsapp: Banking as easy as sending a message

Mobile & Internet: Stay connected with your money anytime, anywhere
